

OPERATIONS GROUP FILE

LOGNOTE -- A/Chief, Operations Group, 5 March 1980

1. [redacted]  
to discuss recruiting, specifically in conjunction with the enhanced Muslim World coverage program. For both editors and engineers it was decided to take three steps initially: (a) put out new vacancy notices, (b) prepare advertisements for trade and/or specialized journals, and (c) to make recruiting trips to appropriate universities. It was determined that, at least on paper, we have vacancies in 1980 for up to seven engineers and for all our editorial requirements there are currently only five candidates in process. [redacted] is arranging for [redacted] to have an advance review of the skills bank listing in order to acquire folders more rapidly. I subsequently briefed [redacted] on the meeting.
